Housewrap:

HomeGuard housewrap products protect buildings under construction and after completion. HomeGuard Housewrap products installed behind the exterior cladding help create a secondary weather barrier, enhancing the heating and cooling systems, and the insulation system.

The Premier Panel:

Premier's two ply "Cedar on Cedar" shingle panel is the only shingle panel available with a naturally durable Western Red Cedar backer-board.

*Classic Design *Rain Screen Design *Individual Cedar Shingles

FrameGuard:

FrameGuard® wood coating contains a blend of anti-mold chemicals and borate technology that protects wood products against mold, fungi and termites.

Armor Tech Finish Systems:

Have your next fiber cement siding job coated with the Armor Tech Finish System. A new state-of-the-art spray coater and convection dry line gives you the highest quality and aesthetically pleasing topcoat available.

Distribution

Fiber Cement Siding:

The Natural Look of Real Cedar Without the Hassle... Utilizing state-of-the-art coating technology, Belco Forest Products has combined the look of rustic natural cedar with the durability and low maintenance fiber cement siding.

CertainTeed's eco-friendly patented formula produces siding products that give you the look of wood without the hassle in a variety of shapes, profiles, and colors to match any design.

Pre-Stained T&G Paneling:

Pre-stained tongue and groove paneling for any interior. Whether you're building your dream vacation home or

renovating an existing living space, Dura-Groove will add the warmth and beauty of pine and cedar paneling at a lower price than traditional tongue and groove.

FSC Certified Lumber:

- * 2 x 4 STD/BTR, #2 & BTR, #1 & BTR KD DF
- * 2 x 6, 2 x 8, 2 x 10, 2 x 12 #2 & Btr KD DF
