

BELCO ARTISAN SERIES

Factory-Stained Pattern — Quality Baked In

The Belco Artisan Series brings the warmth and timeless comfort of natural wood to everything from ceilings to accent wall paneling — with the added beauty of four factory-applied stain colors, each inspired by the rich tones of artisan breads. Factory-finished for a refined result; ready to install the moment it arrives.

ARTISAN WARMTH AND CHARACTER

Belco Artisan patterns are crafted from natural pine and finished at the mill with a consistent application of rich stain color, eliminating field finishing while delivering a refined, design-forward selection. Available in two profiles and four delicious colors, the Artisan Series is the choice when only the warmth and authenticity of natural wood will do.
