

BELCO SIGNATURE SERIES

Premium Reversible WP4

The Belco Signature Series offers a refined, smooth-faced profile for modern, clean design applications. Crafted from natural pine and molded to achieve a buttery-smooth texture on both sides, the Signature Series delivers effortless installation flexibility for timeless design with a flawless finish.

SIGNATURE APPEARANCE AND ADAPTABILITY

Belco's Signature Premium WP4 Tongue-and-Groove delivers a clean appearance with a reversible profile. The finished face can be selected at the time of installation, giving installers full control over the final look. Unprimed by default and available with optional factory prime or end-matching, the Signature Series accommodates both natural wood and painted finish applications with equal elegance.
